

Class-mode — Paid Pilot Offer

To: The Principal, _____ (school name) **From:** Nitish Kumar,
Class-mode · nitishkumar44470@gmail.com · classmode.inmodel.in **Date:** ____ July 2026

What you get

A digital register for your school — attendance, fee tracking, and student records — run by your own teachers on their phones, with your school's data visible to you at any time.

Included in the pilot	How it works today
Daily attendance & reports	App — automated. Teacher taps names; register stored permanently; live on the principal's dashboard with printable term summaries.
Absence list for parent follow-up	Manual. The app produces the day's absentee list; your staff contacts parents from it. We do not auto-send WhatsApp messages today — if the pilot works, automated alerts are the first thing we build with you.
Fee records and dues tracking	App — automated. Entries by office staff; dues visible per student.
Setup, training, and support	In person. I onboard every teacher myself and stay on call throughout.

Price and term

- **₹20 per student per month**, billed monthly on enrolled students in the app.
- **Term: 3 months** (one school term). First 2 weeks are setup and training — **unbilled**; billing starts when attendance is actually being marked.
- Either side may end the pilot with 2 weeks' written notice. Your data is exported to you (Excel) at no cost, whatever the outcome.
- **What we ask:** teachers mark attendance daily (under a minute per class; we train them) · one named contact in the office · a short principal feedback chat every two weeks.

Acceptance

Signature (Principal / authorized signer): _____ Name: _____

Designation: _____ Enrolled students: _____ Start date: _____ Date
